MARK TAMANG

Software Developer

Glen Eden, Auckland, New Zealand • M: +64 22 380 3511 • E: marktmg.info@gmail.com • LinkedIn: linkedin.com/in/marktmng • W: marktmg.com

PROFESSIONAL SUMMARY

Software Developer specialising in **C#, .NET / ASP.NET Core, and web-based systems**, with hands-on experience gained through two Auckland-based internships. Master of Information Technology (Software Development) with practical experience delivering **full-stack applications, RESTful APIs, CI/CD pipelines, and cloud deployments on Azure and AWS**. Strong foundation in modern development practices, containerisation, and collaborative agile environments.

TECHNICAL SKILLS

Languages: C#, JavaScript, Python
.NET & Frameworks: .NET, **ASP.NET Core**, React.js, Django REST
Databases: SQL Server, PostgreSQL, MySQL
Cloud & DevOps: Azure, AWS, Docker, GitHub Actions, CI/CD
Tools: Git/GitHub, Postman, REST APIs

PROFESSIONAL EXPERIENCE

Software Developer Intern — Source Infinity, Auckland
Sep 2024 – Apr 2025

- Developed features using **C#, ASP.NET Core, React, and SQL Server** for a cloud-based platform.
- Built **RESTful APIs**, integrated **Google Drive API**, and supported secure file management.
- Implemented **Docker containers and CI/CD pipelines** using GitHub Actions.

Frontend Developer Intern — Brunton NZ, Auckland
Feb 2024 – Apr 2024

- Built responsive interfaces in **React** and integrated REST APIs.
- Developed a **task scheduling system** and resolved UI/API integration issues.

KEY PROJECTS

E-Commerce (Academic Capstone Project) — *ASP.NET Core Web API, React, SQL Server*

- Designed and developed a **full-stack application** with **RESTful APIs**, database models, and **React** frontend.
- Implemented backend business logic, API endpoints, and data persistence, documented APIs with Swagger.

Infinite Cloud Service Application — *ASP.NET Core, React, SQL Server, Docker, GitHub Actions, Google Drive API*

- Full-stack cloud storage platform with authentication, file management, and CI/CD deployment.
