PROFESSIONAL SUMMARY

Software Developer with full-stack web development experience building cloud-based applications using ASP.NET Core, React, TypeScript, SQL Server, PostgreSQL, and REST APIs. Graduated with a Master of Information Technology (Software Development) and experienced delivering web applications, API integrations, hosting & deployments, and CI/CD workflows. Strong foundation in software engineering, cloud technologies, and scalable web application development within agile team environments.

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, TypeScript, SQL

Frontend: HTML, CSS, React.js, Next.js, React Native, Tailwind CSS, Material UI

Backend & Frameworks: .NET, ASP.NET Core, MVC, Entity Framework Core, Django REST

Databases & Data Access: SQL Server, PostgreSQL, MySQL, Convex, Prisma

Cloud, DevOps & Deployment: AWS, Azure, Cloudflare, Docker, GitHub Actions, Vercel, CircleCI, CI/CD Pipelines

Tools & APIs: Git, GitHub, Postman, Swagger, REST APIs

PROFESSIONAL EXPERIENCE

Software Development (Postgraduate Studies) — Auckland Institute of Studies, Auckland | May 2023 – Dec 2025

- Developed full-stack web, mobile, database, and cloud applications.
- Applied software engineering, object-oriented programming, and system design principles.
- Utilised Docker, CI/CD, Azure, AWS, and cloud deployment workflows.
- Completed industry internships and advanced software development projects.

Software Developer Intern — Source Infinity, Auckland | Sep 2024 – Apr 2025

- Developed and supported full-stack features using ASP.NET Core, React, and SQL Server for a cloud-based platform.
- Built and tested RESTful APIs, including Google Drive API integration for secure file management workflows.
- Implemented Docker-based deployments and CI/CD pipelines using GitHub Actions within an agile team environment.

Frontend Developer Intern — Brunton NZ, Auckland | Feb 2024 – Apr 2024

- Developed responsive React.js user interfaces integrated with RESTful APIs to improve workflow functionality.
- Built a task scheduling feature and resolved frontend/API issues to enhance application performance and reliability.
- Collaborated in code reviews and contributed to frontend development best practices within the development team.

Graphic Design & IT Support — ECEC Innovation in Education, Nepal | Jan 2019 – Apr 2023

- Designed marketing materials, branding assets, and over 20 published children's storybooks using Adobe Creative Suite.
- Managed end-to-end design workflows including layout, illustration support, editing, and production preparation.
- Provided IT support including software installation, troubleshooting, device setup, and basic network support.
- Led photography and media production for educational and institutional events.

Kitchen Steward — SkyCity, Auckland | May 2023 – Present

- Developed strong teamwork, communication, and time management skills in a fast-paced hospitality environment while completing postgraduate studies.

KEY PROJECTS

Rossgrove Church Website — Next.js, TypeScript, PostgreSQL, Prisma, Material UI, Shadcn, Tailwind

- Built and deployed a responsive full-stack website with authentication and admin functionality.
- Integrated PostgreSQL database with Prisma ORM and deployed the application via Vercel.
- Live Project: rossgrovechurch.nz

Infinite Cloud Service Application — *ASP.NET Core, React, SQL Server, Docker, GitHub Actions, Google Drive API*

- Contributed to a cloud-based platform supporting secure authentication, file management, and automated deployment workflows.
- Implemented backend API functionality and cloud integration features within an agile development environment.

E-Commerce Platform — *ASP.NET Core Web API, React, Material UI, SQL Server*

- Developed a full-stack e-commerce application with RESTful APIs, authentication, database models, and React frontend.
- Implemented backend business logic, API endpoints, and SQL Server data persistence.
- Documented and tested APIs using Swagger and Postman.

Pakhreen Company Website — *Next.js, TypeScript, Prisma, PostgreSQL, Tailwind CSS, Cloudflare R2, Vercel*

- Built a full-stack business platform with blog management, content administration, and cloud media storage.
- Implemented responsive user interfaces and database-driven functionality using Next.js, PostgreSQL, and Prisma.
- Managed architecture, deployment, and ongoing feature development.

Usthetik Online Store — *Shopify, Liquid, JavaScript, CSS*

- Developed and customised a Shopify e-commerce store with responsive and user-focused design.
- Modified Shopify themes and frontend components to improve performance, UX, and mobile responsiveness.
- Implemented branding-focused layouts and optimised customer shopping flows.

EDUCATION

Master of Information Technology (Software Development) — *Auckland Institute of Studies, 2025*

Graduate Diploma in Information Technology — *Auckland Institute of Studies, 2024*

Bachelor of Arts — *Campion College, Nepal, 2020*

ADDITIONAL ACHIEVEMENTS

- Experience deploying applications using AWS, Azure, Vercel, Cloudflare, Docker, and CI/CD workflows.
- Published over 20 children's storybooks, managing end-to-end design and production processes.
- Combines software development, IT support, and creative design experience across multiple industries.
